These things happened in the commit-

GOMEZ WANTS MORE RIFLES

Americans Believe Need Is for More Efficient Soldiers Instead of More Armament,

Pollowing its second vigorous move in regard to the situation in Cuba, the administration authorities yesterday found themselves with little further to do but

wait for developments.
With nearly 600 marines already in the Guantanumo district, and four battleships carrying 1,000 more marines on the Way from Key West to Guantanamo, the authorities feel that nothing more is de-manded by the situation at this time.
